GOKULNATHAN THANAPAL

Erode , TamilNadu

[Portfolio](#) ◇ [mailtogokul1727@gmail](#)

OBJECTIVE

Detail oriented developer specializing in full-stack development and innovative problem-solving and constant learning. Dedicated to leveraging cutting-edge tools to create meaningful and sustainable tech solutions .

EDUCATION

Bachelor of Computer Science and Business Systems, Dr.N.G.P.Institute of Technology   2022 - 2026

SKILLS

Technical Skills	Java backend development, React.js, Node.js
Languages	Java, JavaScript, MySQL
Soft Skills	Communication, Team Management, Problem-Solving, Adaptability

EXPERIENCE

Frontend Development Intern - Skillcheckr AI (remote)   November 2024 - January 2025

- Developed and deployed a scalable web application using React.js, ensuring seamless user experience across devices.
- Implemented modern UI components and optimized frontend performance, enhancing speed and accessibility.

Ethical Hacking Intern - Hackup Technologies   July 2024 - Aug 2024

- Gained hands-on experience in Linux, shell scripting, and basic penetration testing.
- Developed foundational skills in system administration and security.

PROJECTS

XPACE - Logistic application **(Link)** :

- Built an application enabling logistics holders to monitor fleet activity, track locations, and manage space utilization requests.
- Facilitated efficient third-party integration, allowing seamless approval and allocation of underutilized truck space.

QTIX - Question for Technical Interview Expertise **(Link)** :

- Developed an interactive coding test platform that randomly selects problems, allowing users to simulate real interview scenarios.
- Implemented an automated summary generation system which enables efficient performance tracking and self-assessment based on session results.

EXTRA-CURRICULAR ACTIVITIES

- **National-Level Hackathon Finalist** – Secured a top 10 position by developing an optimized fleet management and logistics solution, showcasing problem-solving and innovation skills.
- **Leadership and Community Building** – Served as Technical Association **President**, organized **15+ tech events**, built a strong tech community, and actively volunteered in **NSS** to drive social impact.

CODING PLATFORMS

- **Leetcode (Profile)** : Solved over 350+ DSA problems
- **Github (Profile)** : Built and contributed to various projects.
